

Calaveras Red Cross Evacuation Shelter Has New Location

The San Andreas fire evacuation shelter has been relocated to Mountain Oaks School in order to accommodate the potential increase in evacuees. In addition, East Bay Municipal Utility District is offering to help those that have been displaced by the Electra Fire. Displaced residents with recreational vehicles or trailers may stay at Lake Pardee, while those with small recreational vehicles can stay at Lake Camanche-South Shore. People can additionally stay in their own vehicles or in tents and utilize the showers and restrooms at these properties. Additionally, CAL-Fire has established a public information telephone line that can be reached by calling (530) 647-5218. This line will have recorded information regarding the Electra fire and will be available 24 hours a day.
