

ARES/RACES

Emergency Services

Emergency Services

Emergency Services

The SJV ARES Section HF net is held Sundays at 7:00 am on 3935 KHz LSB. All those interesting in Amateur Radio Emergency Communications are invited to join the net.

If you have WinLink, you can check-in via WinLink as well. Send Winlink messages to W6PE.

I will be running the net as a hybrid digital and voice net.

You can send the digital message via any mode available,

telnet, Vara HF or VARA FM. Send the message to W6PE for the net.

Here is video on how that works from the WaveTalkers, if you have not seen it.

Any comments or suggestions are welcome.

Please forward this to anyone who may be interested and mark your calendar.
