

Doug Hanson Passes Away

CARS, it is with sadness that I pass along this information we received yesterday:

My name is Len Hanson, I grew up going up to Fowler peak working on the 145.170 repeater with my Dad Doug Hanson WB6MFV.

Later, after his father passed, he took his father's call sign W7IRJ.

I am sad to report that my father passed away yesterday in Roseburg, OR.

I felt it was important to write to this club and let them know.
