

VOA 79th Anniversary

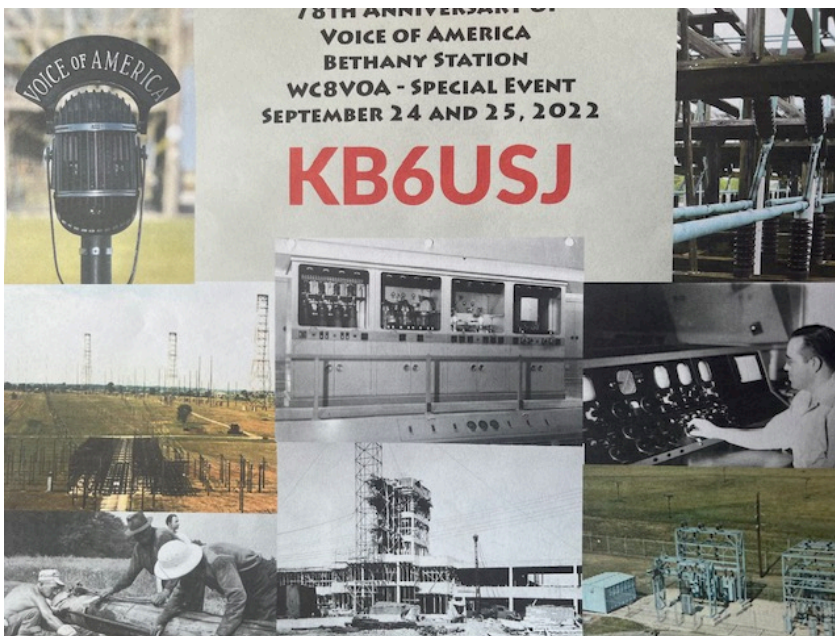

Look for **WC8VOA** on the weekend of September 23rd-24th as we celebrate the 79th anniversary of the Voice of America Bethany Relay Station located in West Chester, OH. The station is now **The National Voice of America Museum of Broadcasting**, if you're in the area it's certainly worth a visit. You will also get a tour of the WC8VOA shack which is located inside the museum.

We plan to operate from 12:00 – 23:59 UTC both days using FT8 and SSB, there even might be some CW.

A digital certificate will be available for anyone who made contact with us during the special event.

The certificates will be available for download **starting Monday, September 25th.**

Thanks for participating.
