

Winlink

SJV ECs or designees please share this with your Volunteers and Amateur Radio Clubs in your Jurisdictions.

Everyone else is free to share it with their Amateur Radio Service Clubs and Groups.

https://winlink.org/sites/default/files/ShakeOutWinlinkExercise_cm6.pdf

If you can follow instructions and have a computer – after downloading Winlink Express from Winlink.org and getting anyone who is using Winlink to help you get started with Telnet mode – the instructions below, updated today, will have you ready to participate in the FEMA sponsored National 2023 Great Shakeout by submitting an Amateur Radio Service Winlink Express “Did You Feel It” (DYFI) Form as close to or after 10:19 AM local time as you can.

Your DYFI will be a tangible contribution to the FEMA Sponsored National 2023 Great Shakeout test use of Winlink Express on a National level..

Be sure to follow the CC: instructions precisely on October 19th.

These step by step instructions are in a downloadable PDF so you can read them as you follow them. The first couple of times.

Practice sending a few DYFI Forms transmissions between now and October 19th.

As long as you have “Exercise” checked you will do no harm.

You can CC:me if you want at wl7coo@winlink.org ... or if you have a SHARES Callsign I can be reached at NNA9HD.

Cheers & 73,

..dan sohn
