INSTRUCTIONS FOR COMPLETING NCVEC FORM 605 APPLICATION

AMATEUR RADIO LICENSES AND REQUIREMENTS

In the US, there are three Amateur Radio license levels, or license classes which are Technician, General and Amateur Extra. The Federal Communications Commission (FCC) grants these licenses. The exams cover regulations, operating practices, and electronics theory. They are based on cumulative knowledge and build off one another. FCC requires the lower level exams to be passed for the higher level licenses to be issued.

LEVEL 1: Technician Class

EXAM: 35 question Technician Written Exam (Element 2)

LEVEL 2: General Class (upgrade from Technician)

EXAM: 35 question General Written Exam (Element 3)

LEVEL 3: Amateur Extra Class (upgrade from General)

EXAM: 50 question Extra Written Exam (Element 4)

The written examinations are constructed from question pools that have been made public. There is no exemption from the written exam requirements for persons with difficulty in reading, writing, or because of a handicap or disability. There are exam accommodations that can be afforded examinees. To view the question pools and other useful information or to contact an FCC appointed VEC organization, visit www.ncvec.org.

FCC CONTACT INFORMATION

Should you have any questions, please contact the FCC at 877-480-3201 (weekdays), or visit the FCC website at <https://www.fcc.gov/wireless/bureau-divisions/mobility-division/amateur-radio-service>.

SOCIAL SECURITY NUMBER

Under the Debt Collection Act of 1996 your Taxpayer ID Number (TIN), which is your Social Security Number, is required on this application -- or your FCC-assigned Federal Registration Number (FRN). An FRN is assigned by the FCC registration system as soon as your SSN is registered. Visit FCC CORES FRN Registration at <https://apps.fcc.gov/coresWeb/publicHome.do>.

NCVEC FORM 605

The NCVEC Form 605 is for VE / VEC use only. Do not send or provide this form to the FCC. This form is used at a VE exam session to apply for a new or upgrade Amateur Radio Operator/Primary Station license. It may also be used to renew or update your license (change your mailing address, email address, name, etc.). This form may not be used to apply for a new specific "Vanity" station call sign.

THE FCC APPLICATION FORM 605

The FCC Form 605 may not be submitted to a VE exam session team or a VEC since it does not request the information required by the administering VEs. The FCC Form 605 may be used to renew or modify your license. New vanity license requests and sequential call sign changes require an FCC schedule D form in addition to the FCC 605 Form. Send the FCC 605 form to: FCC, 1270 Fairfield Rd., Gettysburg PA 17325-7245. You may file license renewals or changes or request a vanity call sign online directly with the FCC at <http://wireless.fcc.gov/uls/>.

FCC BASIC QUALIFICATION QUESTION

This item enables the FCC to determine whether an Applicant is eligible under §§ 310(d) and 308(b) of the Communications Act of 1934, as amended, to hold or have ownership interest in a station license. Applicants are required to answer the question only if 1) they are filing NCVEC or FCC Form 605 for one of the following purposes indicated: **New, Amendment, Modification (Upgrade or Call sign change), or Renewal/Modification**; and 2) the answer has changed from the answer previously provided. Applicants using NCVEC or FCC Form 605 for any other purpose are not required to answer this question.

FCC BASIC QUALIFICATION QUESTION INSTRUCTIONS AND PROCEDURES WHEN ANSWERING "YES"

If the answer to the basic qualification question (felony question) is 'YES', submit as an exhibit a statement explaining the circumstances and a statement giving the reasons why the Applicant believes that grant of the application would be in the public interest notwithstanding the actual or alleged misconduct. If the Applicant responds 'YES' to this question and has previously provided a statement and explanation regarding the circumstances as an attachment to a prior application filed in ULS, and the facts and circumstances are unchanged, the Applicant may refer to the previous application by identifying the application file number and indicating the disposition of the prior application. Find your FCC Application file number:

<http://wireless2.fcc.gov/UlsApp/ApplicationSearch/searchAdvanced.jsp>

Applicants can send the explanation and the application file number via e-mail to attach605@fcc.gov or via postal mail at: **FCC, 1270 Fairfield Rd. Gettysburg, PA 17325-7245.**

The applicant is required to provide an explanation **within 14 days of the application data being submitted to FCC.**

Failure to do so may result in the application dismissal without action. The applicant must provide sufficient information for the FCC to determine whether there exists any material and substantial question of fact regarding whether the applicant has the character qualifications to be a Commission licensee.

There is no set checklist of items, but useful information includes:

- a detailed description of the conduct that resulted in the conviction or guilty plea, including time and place
- the date of the conviction or guilty plea
- the punishment that was imposed, and whether the sentence has been completed, or the applicant is still under any restriction or condition resulting from the conviction or guilty plea
- any efforts taken to remedy the wrongs committed and ensure that the applicant will not engage in such conduct in the future.

If the applicant does not request confidential treatment, the explanation will be publicly viewable in ULS. If the applicant requests that the explanation be confidential, it will not be visible to the public. However, in order to seek confidential treatment, the applicant must include a separate request that the material not be made available for public inspection. The request must contain a statement of the reasons for the request, and identify the portion(s) of the response for which confidential treatment is requested. It is not sufficient to simply mark a document as "Confidential." All attachments, confidential or non-confidential should be accompanied by an application file number, to ensure that the explanation is attached to the proper filing.
