

Visit to Mt. Oso

Last Monday during NET Ken, AE6LA, discussed a visit he and Mike, WA6ZTY, had to Mt. Oso where Mike had an antenna repair. Mt. Oso is a prominent location along the eastern Highway 5 corridor just east of Patterson. Many repeaters are located here due to the nice view it has of the San Joaquin Valley. Here are some pics that Ken sent along. Enjoy.

Here is a link to ALL of Ken's great shots:

Thanks for sharing Ken.
