

SOLAR CYCLE 25

Coronal Mass Ejection

Here are two articles concerning the Sun's cycles. Although not very encouraging for ham radio at least insightful about the nature of the beast.

New study corroborates the influence of planetary tidal forces on solar activity

<https://www.hzdr.de/db/Cms?p0id=58444&pNid=0>

Solar experts predict the Sun's activity in Solar Cycle 25 to be below average, similar to Solar Cycle 24

<https://www.weather.gov/news/190504-sun-activity-in-solar-cycle>

Remember: HAVE RADIO, WILL TRANSMIT.
