

WB6T0U-11 Cruising Over Far Away Places

☒ We all know the World has been upside down, family schedules changed, plans cancelled or on hold. Most of us at home hunkered down, start dreaming of far away places, David Voit and Skip's WB6T0U-11 balloon is doing that!

As it's probable course of traveling over Russia the intrepid balloon said Dasvidaniya. Aprs transmissions were once again copied over Heilongjiang China, before darkness fell over this region telemetry reports put the speed at 53 mph Alt at 40,561 ft. New updates may come available as sunrise approaches, the balloon is well on its way to the China coast line then, Japan.
