

ARES/RACES

Hello XCA ARES, It looks like power is being restored in the county. I only see some small outages along the Hwy 4 corridor. I hope all of you are doing well and your equipment functioned correctly. As for the West Point repeater, it was off the air on Tue morning at around 05:30, the backup generator stop running due to an exhaust issue. Seems that a scheduled maintenance on this is do at 250 hours, the system had 248 runtime hours when it stopped. Power was restored at the site at 11:30 today. If anyone has put in some time working this PSPS please log it on the ARES Connect website. I have created an event for this reason. 73, Sam – WS6P ARES Emergency Coordinator – Calaveras County RACES Radio Officer – Calaveras County Hm: (209) 293-4010 1st Net Cell: (209) 418-9207 W6WPT Repeater 440.100 + T100 WIRES-X node 33432
