

February 27th Antenna Build Class

A few seats available contact Sam if interested

Greetings XCA ARES, I have started a new Ham Elmer class here in West Point. The class is full, but I have 4 or 6 openings for my antenna build class. I will go over how to calculate antenna length, antenna height and types of antennas. We will also do a build on a Open Stub J-Pole and an roll up Ladder line emergency antenna. if you are interested in the antenna build please let me know, so I can reserve a seat. The cost for the OSJ antenna is \$40 and the emergency roll-up is \$10, the cost covers the materials needed.
